

How to Redeem your MV Discount Code

Having trouble redeeming your redemption code because you are shopping from a country other than the UK? Follow these steps in order to redeem your code!

Step 1: Add your desired product to your shopping cart, like normal.

Step 2: Apply your discount code to your item in the shopping cart.

The screenshot shows the Monica Vinader website's shopping cart. The navigation bar includes 'MONICA VINADER', 'SHOP', 'STYLE', 'GIFTS', 'CONCIERGE', 'ABOUT', and 'RECYCLE'. A banner indicates 'You've qualified for Free Express Shipping, select in checkout' and 'Klarna payment available for your basket [More info](#)'. The cart is titled 'Your shopping bag' and contains two items: 'Alta Capture Charm Bracelet' for \$450 and 'Ceramic Nesting Dishes' for \$85. A discount code 'WELINSIDER150' is entered in the 'Offer codes & gift cards' field but is not applied. The right sidebar shows a subtotal of \$450.00, free shipping, and a 'CHECKOUT NOW' button. A notice states: 'Get it on Mon 5th Sep with Express Shipping, order within 20hrs 37m'. A 'CONTINUE SHOPPING' link is at the bottom.

Step 3: A notice will appear that says **“Please note, this offer code is only available for orders placed in GBP”** and the discount will not show that it has been applied to this item.

This screenshot is identical to the previous one, but with an additional notice in the banner: 'Please note that this offer code is only available for orders placed in GBP.' The rest of the page, including the items in the cart and the checkout sidebar, remains the same.

Step 4: It may still show a shipping fee at this point, if it does please enter the free shipping code: **MVINSIDER1-DEL**

Step 5: Once you are ready to complete your purchase, click “Checkout Now” and complete the checkout process like normal.

Note: at this point, it still looks like your discount has not been applied. This is correct.

Step 6: Once you have reached the payment processing step of the checkout process, a dropdown menu will appear that says “Currency.” The currency will be defaulted to the country you are currently shopping from.
